### **Objective:**

To seek an internship opportunity within Web Designing, providing the contingency to expand and develop my skills, capabilities and expertise.

### **Education:**

- **B.E in Computer Science and Engineering**, NMAM Institute of Technology, Nitte (2014 – 2018)  
Expected to graduate in May 2018  
9.7 CGPA in first 5 semesters.
- **Class XII** – Little Rock Indian School, Brahmavar (2012 – 2014)  
Graduated with 93.8% overall.
- **Class X** – Little Rock Indian School, Brahmavar  
Secured 10 CGPA.

### **Internship:**

NMAMIT, Nitte from May 2016 to June 2016

*Objective:* A research on the need for pre-processing raw data before analysis. Various techniques were implemented and tested primarily on text data.

*Outcomes:* As a team we developed an optimized technique for text data pre-processing in specific, using python.

### **Project:**

- **A website on Marvel Comics**  
*Objective:* To provide a detailed description of the Marvel Universe, describing the heroes and the Supervillains. Also contains a fan page on RDJ.  
*Outcomes:* This project helped in understanding the integration of HTML/CSS and JavaScript.
- **A UI to extract reviews from e-commerce websites**  
*Objective:* A program that parses and extracts the top few reviews of a particular project from Amazon.in, Snapdeal.com and Flipkart.com.  
*Outcomes:* This project helped cementing web scraping and python structures.
- **A database management system for Passport-Seva**  
*Objective:* To provide an interactive, flexible and efficient management of databases of the Passport creation process in India.  
*Outcomes:* It helped implementing DBMS concepts for a real world application.

### **Training / Certifications:**

- A one day workshop on mobile application development using the Ionic framework and JavaScript.

- Attended a course on 'Advanced Java' from MICE in 2014.

**Skills and Competencies:****Technical Skills:**

- Programming Languages: C, C++, python, HTML/CSS, PHP, JavaScript, Java, SQL, VB.net, 8086 assembly.
- Operating Systems: GNU/Linux, Windows.
- Good knowledge in Object Oriented programming.
- Strong base in Mathematics.

**Behavioural Skills:**

- Quick learner, team player and possess good analytical skills.
- Creative thinker and enthusiastic.

**Language Skills:**

- English, Hindi, Kannada (read, write, speak)
- Konkani (speak)

**Activities:**

- Organized technical events for the college technical fest.
- Published a research paper on 'Text Mining and Preprocessing' IJECS Journal.
- Volunteered in organizing cultural events for the college cultural fest.

**Organizations:**

- Member of Computer Society of India (CSI).
- Volunteered in activities of The Association of Computer Science Engineers (ACE).
- Worked for the Association of Computer Machinery (ACM) specializing in Mobile Technologies

**Achievements:**

- 2<sup>nd</sup> place in an intra-college technical / problem solving quiz.

**Hobbies and Interests:**

- Working out at the gym.
- Football and cricket.
- Photo editing
- Computer Gaming.
