Objective:

To seek an internship opportunity within Web Application Development providing the contingency to expand and develop my skills, capabilities and expertise.

Education:

- **B.E in Computer Science and Engineering**, NMAM Institute of Technology, Nitte (2014 – 2018)
Expected to graduate in May 2018, 8.29 CGPA in first 5 semesters.
- **Class XII** – Shiv Jyoti convent School (2012– 2014)
Graduated with 65% overall.
- **Class X** – DAV centenary public school
Graduated with 8.8 CGPA.

Project:

- **A Media player application**
Project objective: To design an user-friendly,easy to use/operate and interesting Application. The app will work on all platforms (android, iOS, windows).
This app can play all media formats.
- **A database management system for The Navy**
The application written in VB.net and SQL provided interactive, flexible and efficient management of databases of the Navy.
It helped implementing DBMS concepts for a real-world application.
- **A website on Marvel Comics**
Objective: To provide a detailed description of the Marvel Universe, describing the heroes and the Supervillains. Also, contains a fan page on RDJ.
Outcomes: This project helped in understanding the integration of HTML/CSS and JavaScript.

Training / Certifications:

- A one day workshop on mobile application development using the Ionic framework and JavaScript to create a mobile application.
- Training in android app development
